

SR-91 Westbound & Eastbound Lane Widening Project

Commuter Alert

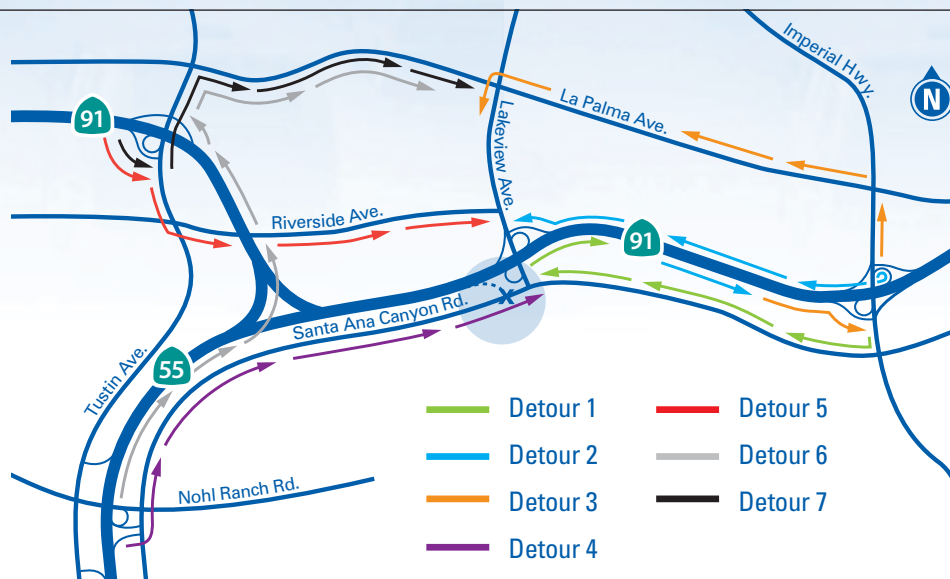

Six Week Closure of Eastbound Lakeview Avenue Off-ramp

Background: Caltrans and OCTA are constructing the SR-91 Westbound and Eastbound Lane Widening Project. In addition to adding a new, six-mile lane in each direction between SR-55 and SR-241, the project will deliver an additional eastbound exit lane at the Lakeview Avenue, Imperial Highway, and Yorba Linda Boulevard/Weir Canyon Road off-ramps. As part of the project, three bridges will be widened and 15 ramps will be realigned. Project completion is estimated for early 2013.

What: The Eastbound Lakeview Off-Ramp will be temporarily closed so that construction crews can safely and efficiently realign the ramp and accommodate the new lane.

When: The six week closure will begin Monday, February 13 and is expected to be complete Sunday, March 25, 2012. *(Please note this start date is subject to change due to unforeseen weather or operational issues.)*

Next Steps: Electronic signage will be erected. Concrete safety barriers will be installed and detour signs will be featured throughout the area.

Safety Reminder

As a reminder, California law requires vehicles to safely reduce speed, move over and merge into unoccupied lanes when emergency vehicles, construction vehicles, or tow trucks are displaying flashing warning lights. OCTA and Caltrans remind motorists to use extra caution and reduce speeds when driving through construction zones.
