

Every year we have to determine which broadcast programs to keep and which ones to let go. Unfortunately, we can't broadcast every show we want, especially when it means paying royalties to broadcast a show to 400,000 people when only a few people are using it in their classrooms.

I've attached a list of shows that have received less and less interest from our teachers over time. Due to copyright law and since we're no longer paying royalties on these shows, they can no longer be used in your classrooms or libraries.

The 9:00 AM - 12:00 PM, Monday-Friday block is still filled with great educational programming and you may still record it for your classroom use.

KOCE-TV Televisions Shows Not Renewed for 2008-2009
